Statement of the Congress of Azerbaijanis of the Benelux, associated with the death of Mqer Yeqirazyan

As you know, Mqer Yeqirazyan were caught "Eagles of Armenia" - the vice-president of Unit Armenia", and the representative of site "Haynews.am" and was taken to in "Nubarashen" jail. The result of his hunger strike he was dead after 44days. Thereby,in different articles of some of the media organs are printed , and also it was published in "The Washington Post" newspapers the title about "Armenian politician, death after hunger stike".

After the death of political mansion, his son Vazqen Yeqiazaryan sent theletter to the Prime

Minister and some of the letters were sent to the group of deputy of parlament. He wrote the letter by accusing his father's death by them. It is noticed that:"That ministers and sub-ministers don't comply to you, but your promotion, don't forget about it!"

All of these shows the armenian concrete, real nature. It is very interesting, when all the countries of the world received tendentious declaration and resolutions about Azerbaijan such kind of item, do the European parlaments analyse them:

1. If Armenian people are at enmity each other,what can you tell about humanistic relationship in between Dilqem and Shahbaz?
- 2.On the basis of the disinformations, and unknown info the organizations which are receiving the resolution about Azerbaijanian Republic, why they are keeping calm so tolerably for the armenian politician who "died" in the jail. Isn't it the example of doubled and dual approach?
3. this fact proves that armenianprefer their ambitions superiurer than their from armenian people. We see from the polical and humanical this ambitions inhumanity. Exactly for these armenian politicians' ambitions we can easily see the war in Daghligh Garabagh.

Sincerely,

President of the Congress of Benelux Azerbaijanis
Elsevar Mammadov.
